SUMMARY

UI/UX & AI Designer building responsive digital experiences in **Figma, WordPress, Shopify,** and **n8n workflow automation**. Owns end-to-end website and dashboard delivery, from interface design and product data management to client communication, with consistent on-time launch and full client approval. Applies **AI image generation** and prompt engineering to create visuals that support design and marketing needs. Delivered a redesign that drove a 10X increase in reach and sales for an e-commerce client.

SKILLS

Technical Skills: Shopify Development, WordPress (Theme & Plugin Customization), HTML, CSS, JavaScript

Product Design Practice: Wireframing, Prototyping, Responsive Design, User Research, Design Systems

Visual Communication: Visual Design, Style Guides, Iterative Design, Typography, Layout Design

WORK EXPERIENCE

UI/UX & AI Designer | *Codesoftic Tech Private Limited* **Nov 2024 – Present (1.8+ Yrs)**

- Independently owned end-to-end design, development, and content management for multiple live Shopify stores (parvathibyvvm.com, pinktiiger.com, Mehhakk Heritage) — UI design, product catalog/data management, and client meetings — achieving 100% client approval and on-time delivery across all projects.
- Created visually appealing UI aligned with brand guidelines; designed interaction patterns and micro-interactions to improve usability, and maintained scalable design systems/style guides for consistency across projects.
- Ensured responsive design across devices; conducted usability testing and user research (interviews, surveys) to inform design decisions.
- Built and customized WordPress themes and plugins; independently designed and developed many WordPress websites end-to-end in Divi Builder and Claude-customized themes.
- Automated recurring workflows using n8n across Google Sheets, CRMs, and WhatsApp, reducing manual data-handling effort.
- Worked hands-on with ComfyUI and AI image generation software, applying deep prompt-engineering knowledge to produce high-quality AI-generated visuals for design and marketing use.
- Built and designed dashboard platforms using Lovable, including a car dealership management dashboard (receptionist, inventory, client data) and an education dashboard for course and booking management.
- Linked the GetaSeed API across four niche Lovable platforms to enable direct WhatsApp broadcast messaging, handling API integration, UI design, and data storage in Supabase.
- Hosted YouTube video content for Codesoftic, presenting product and technical videos for the brand's channel.

UI/UX Designer | *Ellocent Labs* **Apr 2024 – Sep 2024**

- Assisted in creating clean, user-friendly interface designs based on wireframes and brand guidelines.
- Collaborated with UX designers, developers, and product managers to turn concepts into functional designs.
- Used and maintained design systems to ensure visual consistency across platforms.
- Built interactive prototypes and refined designs based on user and stakeholder feedback.
- Designed graphics, banners, and posts for digital marketing and social media campaigns.

Graphic Designer & UI/UX Designer | *Solitaire Infosystems Pvt. Ltd.* **Dec 2023 – Apr 2024**

- Produced design assets including typography and layout work for marketing materials.
- Designed logos and brand identity elements for client projects.
- Created social media creatives to support digital marketing efforts.

MAJOR PROJECTS

Parvathi by VVM (Shopify) — www.parvathibyvvm.com/

- Independently managed design, product data, and store setup for a live Shopify store; delivered on time with full client approval.

Pink Tiger (Shopify) — pinktiiger.com/

- Owned end-to-end UI design and product/catalog management for a live Shopify streetwear brand store.

Mehhakk Heritage (Shopify — In Progress) — mehhakk-heritage.myshopify.com/

- Currently managing design, development, and product data for an in-progress Shopify leather-goods store.

ElloMed

- Designed a responsive medical consultation platform with an intuitive UI for doctors and patients.

Keylr

- Designed a user-friendly interface for a property management platform, streamlining operations for managed services.

Ellocent Labs — Website Revamp

- Revamped the company website's UI/UX to improve visual consistency and usability.

Codesoftic — Website Revamp

- Revamped the company website's UI/UX to align with updated brand guidelines.

GetaSeed

- Designed UI elements aimed at enhancing sales and customer engagement.

WordPress Projects (Design to Development, Divi & Claude-Customized Themes)

Kaachvalaym — Bagel Store — kaachvalaym.com/

- Designed and developed an e-commerce bagel store website end-to-end in WordPress (Divi); redesign drove a 10X increase in store reach and sales.

GetaSeed — WhatsApp Marketing Software — getaseed.com/

- Designed and developed the marketing website in WordPress alongside separate software/product UI design for the WhatsApp marketing platform.

The Core Therapy — Mental Health Platform — thecoretherapy.in/

- Designed and developed a mental health services website end-to-end in WordPress.

Profydev — Course Platform — profydev.com/

- Designed and developed an online course platform website end-to-end in WordPress.

TruCare WA — Healthcare — trucarewa.com.au/

- Designed and developed the website end-to-end in WordPress; also handled social media creatives, reels, and voiceovers for the brand.

Lovable Dashboard Projects (Design, API Integration & Supabase Data Management)

Raj Motors — Drive Flow Dashboard — raj-drive-flow.lovable.app/

- Designed and built a dashboard for a car dealership to manage receptionist operations, car inventory, and client data.

Payoman — Education Dashboard — payoman.lovable.app/

- Designed and built an education dashboard for managing courses and bookings.

WhatsApp Broadcasting Platforms — Seedoo, Saloon, Esato, JewelChat — seedoo.lovable.app/

- Designed and integrated four niche Lovable platforms (Seedoo, Saloon, Esato, JewelChat) with the GetaSeed API to enable direct WhatsApp broadcast messaging; managed API linking, UI design, and data storage in Supabase.
